KILLS WIFE, THEN SELF NEAR ADA; LIE SIDE BY SIDE

E. L. Tigner Shoots Wife to Death Without Warning, Then Blows Out Own Brains; Leaves Baby Girl.

TRAGEDY OCCURS 9:15 THURSDAY MORNING AT HOME OF MONS LANEER MILE EAST OF CITY—LATE DOMESTIC TROUBLE BETWEEN DEAD COUPLE.

There seems to be no finality. Pontotoc county has been visited with another tragedy. This time it is a wife murder, followed by the husband's suicide. This Thursday morning, at 9:15 o'clock, W. E. (Elden) Tigner, shot his wife to death at the home of her brother, Mr. Mon Laneer, and an instant later, blew out his own brains.

Tigner was in town this morning attending to business, apparently in a calm frame of mind. At 8 o'clock, he called at the store of the Ada Hardware Co. and paid Mr. McKendree the amount of his account, being about three dollars; but he did remark to Mr. McKendree, as he drew his hand across his forehead, that he had a bad pain in his head. Something after 8 o'clock, Mr. Henry Young, on whose place the tragedy occurred, saw Mr. Tigner at the Katy track going East toward his farm. Mr. Young relates that the next time he saw Tigner, which was not an hour later, was when he lay gasping in death, near the dead body of his wife, who had, but five minutes before, breathed her last. Mr. Young was on his way home through his farm and when, in about 150 yards of Mr. Mons Laneer's home, he heard three shots in rapid succession and apart at about equal intervals. He ran headlong to the Laneer home and other than Mrs. Mons Laneer, who was the only grown person a witness to the tragedy, is probably the best acquainted with the facts closely connected with the horrible affair.

Mr. Tigner was about thirty years and his wife 23 years of age. They had been married about four years. They had been separated about four weeks, since which time, Mrs. Tigner, with her three year old child, lived with her half brother, Mons Laneer, on the Henry Young farm, adjoining the city of Ada. Since the separation of the couple, it is said that Tigner visited his wife at intervals, and while his visits had not been interfered with, that Mr. Laneer had advised his sister, to whom he was much devoted, that it was not right for her to board to visit her when they were separated.

When Tigner, with crazed mind or devilish intent, approached his wife, she was engaged in washing, under a pecan tree about thirty feet from the house. The first shot, being from a 38 calibre Colt revolver, evidently intended for her head, went through her throat at the back of the jaw; the second shot went in under the left shoulder toward the back. Mrs. Laneer, who was the only one, except her little child, Thelma, and the three year old baby of the dead woman, who witnessed the tragedy, said that the poor woman, when first shot, started toward her, but received an-

other shot before she had traveled any distance. When Tigner had shot his wife down, he immediately shot himself through the head and fell within fifteen feet of his wife. Mrs. Tigner died about five minutes before Tigner.

Mr. Mons Laneer, middle aged citizen, half brother to the dead woman, is looked on as one of the best citizens of the county. It is understood that he largely raised Mrs. Tigner, and his home was her natural abode when trouble came with her husband. Mr. Young states that he had noticed Mrs. Tigner, on yesterday, faithfully chopping cotton, and that last night, at a little neighborly gathering at the home of Mr. Henderson, near by, composed only of the families living on the Young farm, he had felt impressed with the quietness and lady-like bearing of Mrs. Tigner. Mr. Young when talking to a News reporter, was naturally sympathetically affected, having just left the scene of the tragedy twenty minutes before, in telling the facts relating to the horrible scene, remarked that it was very pitiful to see the little three year old girl orphaned, only the moment before, laughing gayly in the face of her dead mother.

The county attorney, Robert Wimbish, was heard to say that Mr. Tigner had been visiting his office from time to time, in connection with alleged trouble associated with the separation from his wife. It appears that Tigner was deeply jealous of his wife and had expressed the belief that some one, previously acquainted with his wife, was making inroads on his home. But it is asserted by Mr. Young that the woman conducted herself above suspicion and bore a favorable reputation among her acquaintances.

The Tigner family and connections are county pioneers, and have reputation for good and peaceable character. Jno. D. and Edgar Tigner are brothers, and J. T. Tigner, father of the dead man, Mr. J. A. Wooley, substantial and respected East Pontotoc county merchant is a brother-in-law to the Tigner boys, having married Ada Tigner. Another brother-in-law is Tom Laughlin of Conway who married, Mattie Tigner, and another is W. R. Bethel, a foreman at the cement plant, who married Nora Tigner. The father, Squire Tigner lives at Moller, where he owns a farm.

At this time, thirty minutes after the tragedy, Judge Brown and officers are repairing to the scene for purposes of inquests.

MRS. MONS LANEER'S TESTIMONY AT INQUEST

In the matter of an inquisition this day held before H. J. Brown, a

Justice of the Peace, acting as a coroner.

Mrs. Monie Laneer being sworn testified as follows:

I am 34 years old. I am the wife of D. M. Laneer. I was present when the shooting occurred this morning. It happened about half past 9 o'clock this morning. I was acquainted with Elvin Tigner and his wife. Her name is Mildred Tigner. She is about 24 years of age and he is 29 or 30 years of age. He had been here something like 10 minutes when shooting took place. I saw something was wrong with him when he came up. He was pale as he could be. I turned to come in the house. We were fixing to wash and she was out at the wash place. He spoke and asked for a drink of water. After he got a drink he said he had a letter he wanted her to read and he gave it to her and she read it. He walked out to where my daughter was standing and said something. I don't know what it was. He kissed my daughter and said he was going to leave and she got through reading the letter and started to walk up to where they were and he said as long as you stay here I'll let you keep the baby. She said if you aim to take the baby and the law will let you have her, I want you to take her right now. She turned and went to her washing and nothing more was said. He then shot her. After walking in front of her. She started to the house and hollowed and he shot her again. He then stepped off two or three steps as if to leave and when she fell he shot himself. I heard only three shots and saw him when he was shooting. Monie Laneer.

Velma Laneer being sworn testified as follows: I am 15 years old. I was standing close by when shooting commenced. They had been talking about her keeping the baby just before it happened. He was standing kinder to her side and 5 or 6 feet away when he shot first shot. After he shot she turned towards the house and cried, Oh! He shot second shot and she fell. He then turned and walked a step or two off and shot himself. He had been out here several times and didn't act this morning as he usually did. He seemed bothered and nervous. He gave her a letter to read just before he shot her. I don't think she gave him the letter back. I saw him shoot her and saw him fall. I saw him take the gun from his pocket. He was here just once this morning. He told me good-bye and said he was going to leave. Velma Laneer.

Henry Young being sworn testified as follows: The first thing that attracted my attention to the trouble was the shots. I was about 200 yards away running a mower. I was oiling machine when it happened. I heard three shots. The first two shots were closer together than second and third shots. I hear hallowing just after shots. I came to house as quickly as I could. When I got here I found Mrs. Tigner lying on ground. She lived about five minutes after I got here. Mr. Tigner was lying 30 feet away and still alive. A 38 Colts pistol was lying near him. He was shot through the head and she was shot below the left ear and in the back below left shoulder blade.

Mrs. Laneer and her daughter were here when I got here. Mr. Laneer had not got here when I come. H. T. Young.

Verdict of the Jury.

In the matter of an inquisition held before H. J. Brown, a Justice of the Peace in and for Ada Township, Pontotoc County, Oklahoma, acting as Coroner.

We, the jury of inquest upon the dead bodies of Mildred Tigner and W. E. Tigner there lying dead, have examined into the cause, time, manner and place of the death of the two said deceased persons, do find and report as follows, to-wit:

1st. That the names of the deceased are as follows: Mildred Tigner and W. E. Tigner. 2nd. That the first named is a female and the other a male person aged about 24 and 28 respectively at the time of their death and that they were husband and wife. 3rd. That the said two deceased persons came to their death at the home of Mon Laneer about one and a half miles East of the City of Ada, Oklahoma, Pontotoc County, about 9:30 o'clock A. M., on the 8th day of June, 1911. 4th. That the cause of the death of the said Mildred Tigner deceased, was caused as follows and in the manner following, to-wit: That

one W. E. Tigner, of his malice aforethought and with a premeditated design to effect the death of her the said Mildred Tigner did, on the 8th day of June, 1911, in said county and state, shoot her the said Mildred Tigner with a pistol then and there had and held by him, inflicting on her two mortal wounds of which she then and there immediately died. That said wounds entered her body as follows: Wound described as No. 1 entered the body just above the right nipple and made exit under right shoulder blade. Wound described as No. 2, entered body between shoulder blades and made exit at left side of neck. That the said W. E. Tigner with the premeditated design to effect his own death did on the same day and date, at the same time and place, with the same pistol then and there had and held in his hand shoot and inflict on himself one mortal wound of which he then and there died. Said wound entered the head at the left temple and made exit above the right ear.

Witness our signatures this 8th day of June A. D., 1911.

WIMBISH VS. KERR MANDAMUS ACTION

**FRIENDLY SUIT OF TEST AT
LAW WHETHER COUNTY AT-
TORNEY SHALL ISSUE WAR-
RANTS ABOVE 80 PER CENT OF
TAX LEVY FOR CURRENT YEAR.**

A friendly and important suit at law before Judge McKeown's district court this afternoon is a mandamus action in which county attorney, Robt. Wimbish is relator and county clerk, Sam Kerr is defendant.

By reason of the constitutional or statutory law prescribing that no warrants shall issue in settlement of claims or debt above 80 per cent of the levy for the current year. Mr. Kerr has refused to sign warrants in satisfaction of claims lately allowed by the county board of commissioners.

Mr. Wimbish contends that it is essential that warrants issue in payment of claims, when refusal would seriously cripple the conduct of necessary business of the county and irreparably impair its credit. He argued that there were court decisions which would warrant the compulsion

of warrant issuances, notwithstanding the state's statutory limit when such were in satisfaction of claims, unless satisfied would inure to the serious disruption of the affairs of the county. Such claims he averred were those at present affected by the question at issue, "Whether or not these necessities constitute a different rule."

ent rule," under the action of the county clerk in refusing warrant issuances in satisfaction thereof. For instance some of the claims were for the board of juries; for the living necessities of a county pauper and for the salary of an officer of the county, etc.

At the time of going to press, the court had transferred his hearing to the more pleasant room of the county clerk and was continuing to hear the argument in the mandamus suit.

Judges McKeel and Curries are representing County Clerk err.

SANE DEMONSTRATION.

With the greatest of all national
 holidays less than a month off the
 plea for a safe and sane Fourth of
 July is being vigorously made all
 over the country.

For years the day has been char-
 acterized with a great sacrifice of hu-
 man life and limb and with each
 passing year the publicity of the fa-
 talities of the day has done much to
 crystallize a sentiment which de-
 mands that the day shall be cele-
 brated decently and in order. There
 is no attempt being made to rob the
 celebration of any of the real patri-
 otism it merits and deserves.

It is the death dealing, insane,
 stupid, inhuman, unnecessary and
 indiscriminate use of dangerous ex-
 plosives which are being placed un-
 der a ban and righteously so.

Practically every city in the land
 has prohibited the use of fire-works
 and only because of the dangerous
 ones which gradually came into use
 on that and other days. If the fire-
 works manufacturers had confined
 themselves to the harmless kind there
 would never have been any protest,
 but during the past few years the
 sole object of the manufacturers
 seems to have been to vie one with
 the other as to which could make the
 noisiest and most deadly.

The Chicago Tribune makes a
 practice of securing a record of ev-
 ery accident that occurs on the
 Fourth of July and their record is
 accepted as nearly correct. The
 growth of accidents has been so pre-
 ceptable that the country is now call-
 ing a halt and the officials of the cit-
 ies have risen to the occasion and
 are doing their part to eliminate
 death and accident.

It is wise, too. Let's have all of
 the fun possible. Let us be as noisy
 as we want to but let the fun and
 the noise be of the kind that does
 not leave death and destruction in
 its wake.—Muskogee Phoenix.

POOR MAN'S CLUB.

Philadelphia Inquirer: No longer
 is the United States senate the lead-
 ing millionaires' club of America.
 The number of millionaires in the
 upper branch of congress has been
 decimated, and the time may not
 be far distant when the senate will
 become known as the poor man's
 club.

No less than \$50,000,000 worth of
 senators has been ripped from the
 upper branch by an operation as sim-
 ple as the one that left Adam with-
 out one of his ribs. The late demo-
 cratic cyclone had much to do with
 it. From present indications there
 will have to be formed an associa-
 tion for the conservation of our mil-
 lionaires in the senate unless it is
 to become the poor man's club.

The death of Stephen B. Elkins of
 West Virginia carried \$15,000,000
 out of the senate. The retirement of
 Nelson A. Aldrich of Rhode Island
 carried \$10,000,000 away. Four mil-
 lions went with Eugene Hale of
 Maine when he made way for Sen-
 ator Johnson, elected by the demo-
 cratic legislature.

Chauncey M. Depew of New York,
 director in 32 different railroads,
 walked off with \$7,000,000. It was
 his own and he had a right to walk
 off with it, but the senate in the ag-

gregate became just that much poor-
 er.

Then there was John Kean of
 New Jersey, who while scarcely in
 the class of Elkins, was worth \$5,-
 000,000. When he left, another \$5,000,-
 000 iron man bit the dust, so far as
 the senate was concerned.

In the broad, sweet fields of pri-
 vate life wandered Nathan B. Scott
 of West Virginia, with his \$4,000,000.
 With him, along the rose-bordered
 byway, went James P. Taliaferro of
 Florida with \$3,000,000. Hughes of
 Colorado died, removing another \$2,-
 000,000.

There was \$50,000,000 right at one
 clip. The men elected to replace these
 millionaires are virtually poor men
 or, at least, what the world consid-
 ers poor men in these days of big
 fortunes.

Watson of West Virginia, who re-
 placed Elkins, is about the only mil-
 lionaire in the batch of baby mem-
 bers. He is worth \$2,000,000.

Senator O'Gorman of New York is
 by no means wealthy, and he expects
 to be obliged to support his large
 family on \$7,500, which is his salary
 in the senate. He used to receive
 \$17,500 as judge of one of the New
 York courts, and he admits now that
 it is not going to be easy to keep
 up the senatorial pace on \$7,500.

Senator Money of Mississippi who
 retired with the last congress, was a
 poor man, and John Sharp Williams,
 who succeeded him, is not wealthy.

SIMPLIFIED LOCAL GOVERNMENT.

There has long been a demand in
 this country for the application of
 business methods to public affairs,
 and if we take the trouble to look
 carefully back over the last quarter
 of a century it will be found that the
 effort to meet this demand has been
 continuous and not altogether un-
 fruitful. General adoption of the
 merit system was a long step in this
 direction. In municipalities a better
 plan of contracting, purchasing and
 accounting has marked another for-
 ward step. Confining ourselves to lo-
 cal government, the adoption of the
 commission idea has been the most
 important step of all. It does not mat-
 ter whether the particular form of
 commission government is identified
 with Galveston, Dallas, Des Moines
 or some other pioneer community;
 the important thing is that the city
 taking the step has departed from
 the old and cumbersome and costly
 method of doing things, and has found
 a way that is simpler, more economi-
 cal and more efficient, says the
 Christian Science Monitor.

That none of the cities making the
 change thus far is able to say the
 last word about commission govern-
 ment is a fact known to those who
 are giving the subject close atten-
 tion. Variations of application are as
 numerous as the communities that
 have so far adopted this plan. Hence
 it is not at all surprising to learn
 that Lockport, N. Y., in its desire to
 get away completely from the old
 system, is about to take up one that,
 except for its simplicity, bears little
 resemblance to any form of the com-
 mission plan.

In reality, it is the German "busi-
 ness agent" system. What Lockport
 proposes is to elect five citizens as a
 council whose principal business it
 will be to lay out the work neces-
 sary to be performed for the munic-
 ipality and to employ a business
 agent who shall have absolute di-
 rection and control of that work. He
 will be to the municipality what the
 business manager is to the mercan-
 tile or manufacturing concern, what
 the president of a railroad is to the
 corporation. He will not be a politi-
 cian or have anything to do with po-
 litics. He will, if the German idea be
 carried out in all its fullness, be a
 professional municipal manager, like-
 ly, if he distinguish himself in this
 line, to be called by any other mu-
 nicipality in need of a manager and
 willing and able to pay him a larger
 salary. To the German town or city
 manager the incentive is profession-
 al success and advancement. He is
 exactly in the position of the corpora-
 tion superintendent who is ambi-
 tious to succeed that he may there-
 by enhance the value of his services.

There will be no sentiment in his
 relations with the city; no sentiment
 in the city's relations with him. He
 is employed simply to look after the
 interests of the community; his re-
 ward is his salary, assurance of em-
 ployment, hope of advancement and
 the satisfaction that every honest
 toiler has in his work. This looks
 like reducing civics to a cold busi-
 ness proposition. On the other hand,
 it should promote economy and ef-
 ficiency; it should give the taxpay-
 ers more for their money than they
 have ever received under the politi-
 cal contract and ward spoils system;
 and this, for the present, would be a
 large compensation.—Wichita Eagle.

TIME OF INDEPENDENCE

No Disguising the Fact that Peaceful
 Revolution Is Taking Place in
 Country; People Shaking Off
 Manacles.

Washington, June 7.—Following on
 the heels of presidential gossip widely
 published in the Eastern newspa-
 pers today that the conservative dem-
 ocrats in the senate have decided to
 put their foot on the Wilson boom
 and deflect the Wilson sentiment to
 Speaker Champ Clark, in which con-
 nection the names of Senators Mar-
 tin and Bailey are conspicuously
 mentioned and glowing tribute which
 Senator Rayner paid to the New Jer-
 sey governor this afternoon in the
 senate has created much comment.

The opposition to Gov. Wilson is
 said to be based upon the ground
 that he is not a good party man. This
 objection to Gov. Wilson is interest-
 ing, in view of what Senator Rayner
 said. He was discussing direct elec-
 tion of senators and the breaking up
 of partisan servitude.

Rayner's Defense of Wilson.

"We can not disguise the fact," he
 said, "that a peaceful revolution is
 taking place in this country. It stands
 out in bold, relief and political inde-
 pendence is the order of the day in
 both parties. The people are shak-
 ing off the manacles and fetters of
 political slavery, and link by link the
 chain is breaking. The conflict is on,
 and the people, led by patriots, are
 in the field.

"I deny that this movement is de-
 teriorating the standard of intelli-
 gence or morality of the public ser-
 vice. A prominent Senator proclaimed
 to the country a few years ago
 that the decalogue in politics is an
 iridescent dream. Any person who at
 this hour would announce that a
 moral code in politics is a dream
 would be branded as an outlaw and
 banished from the field of his politi-
 cal activity. Instead of an iridescent
 dream it is a radiant reality.

Refers to Party Servitude.

"A few years ago party servitude
 was a badge of honor, and if an un-
 qualified candidate was nominated
 for public office it was considered
 the duty of every man to rally to his
 support, and it was held to be dis-
 loyal and treason to revolt against
 the nomination, but treason prospered,
 and when treason prospers it is
 no longer treason.

"The measure now before us," con-
 tinued Senator Rayner, getting down
 to the point "he was making, "is
 merely a sign and symptom of the
 movement. It was put to a practical
 test a short time ago in New Jer-
 sey. I am not just now selecting
 Presidential candidates, because I
 am not a politician, thank God. I do
 say, however, that never upon the
 pages of our political history was
 there a more fearless exhibition of
 independence than that of the gov-
 ernor of that state upon this oc-
 casion. A primary election had been
 held, and I do not care how many
 or how few people voted at that pri-
 mary, the people had the opportunity
 to vote and if they did not exercise
 the right, it was their fault.

Principal Announced by Wilson.

Gov. Wilson announced the princi-
 ple that a moral obligation rested up-
 on the legislature to sustain the re-
 sult of the election. He denied the
 right of any one to corral the legis-
 lature and his undaunted courage in
 laying down the gauntlet of battle to
 the forces that opposed him has drawn
 for him from every section of the
 country the commendation of his
 countrymen.

"It is the same way with us. We
 can not override the will of the Am-
 erican people and we might as well
 fall in line with it. We might as well
 recognize the fact that this senate
 is not more powerful than the con-
 stituencies it represents and that we
 can not throttle this reform any
 longer."

Criticises Col. Roosevelt.

In presenting to the senate his final
 plea in support of the election of
 Senators by direct vote of the peo-
 ple, Senator Rayner once more paid
 his respects to former President
 Roosevelt.

He said he did not enjoy refer-
 ence to the fact that he and Mr.
 Roosevelt agree in their advocacy
 of this policy, and explained that
 when he was on a platform he stay-
 ed on it, while the former president
 had the "peculiar faculty" of getting

HOW MUCH

Is a Regular Customer Worth to Your Store?

Suppose you could BUY 100 additional REGULAR CUSTOMERS during the next week or two--customers who, for years and years to come, would make a MAJORITY of their purchases of goods in your line at YOUR STORE? What would each of these 100 customers be worth to you?

It is, we think, quite likely that if such an investment were possible; you'd eagerly pay TWICE AS MUCH as it would cost you to secure these 100 REGULAR CUSTOMERS through an advertising campaign big enough and aggressive enough to really make people ACQUAINTED with your store.

on and off platforms with extraor-
 dinary alacrity.

"No other individual in the United
 States has the genius that he has in
 this connection," said Mr. Rayner.
 "He can make a statement one day
 and absolutely deny it the next and
 people seem to believe him both
 times.

"Talking about platforms, he can
 make a speech upon the platform of
 a railroad train where the stations
 are only a mile apart and recant at
 one station what he has said at the
 station he had just passed; he can
 recommend the selection of a progres-
 sive senate in one state and then
 with equal vehemence indorse the ex-
 treme conservative in another; he
 can stand on two political plat-
 forms, each radically differing from
 the other, and then deny that he
 stood upon either of them. He can
 coquette with both political parties
 and then start a party of his own,
 whose doctrines and policies consist
 of an incoherent medley of constitu-
 tional impossibilities.

"He can stand before an intelligent
 audience of 3,000 people and tell them
 how, at the dead of night, upon the
 borders of an African jungle, upon
 the banks of a river that never had
 any existence, when no one was with
 him, he encountered and slaughtered
 a mythological animal that God had
 never created, and receive the wild-
 est plaudits for the miraculous per-
 formance of this impossible accom-
 plishment."

Senator Rayner declared that after
 obtaining his (Rayner's) promise to
 maintain his position on the rail-
 road rate bill Mr. Roosevelt had
 himself changed his own position
 over night.

"You must die where you stand,"
 the then president was quoted as say-
 ing to him.

"The next day when the vote was
 taken," said the Senator, "I stood to
 my colors and died where I stood.
 Just as I was about dying, however,
 I looked around for the president,
 who had promised to die with me,
 but he had neither died nor retreated.
 On the contrary, I never saw
 anyone more constructively alive.

"The only explanation I ever re-
 ceived for this maneuver, unparal-
 leled in point of strategy on the
 pages of political history, was his re-
 marks to me, "Well, you all died a
 glorious death. I was so sorry I could
 not be with you."

He predicted that the amendment
 would gather its strength from ev-
 ery community where integrity rules
 and intelligence prevails.

GREAT.

First Shock Felt at 4:26 o'Clock Wednesday Morning and Tremors Continued 14 Minutes—Most Casualties Were Among Soldiers.

City of Mexico, June 7.—Sixty-three killed, seventy-five wounded, property loss \$100,000. These are the net results of the earthquake with which the residents of the capital were stricken this morning and injected a note of tragedy into what was expected to be a day of pure rejoicing. When the work of searching the ruins is completed it is expected that the list of dead will be lengthened somewhat, as hiding here and there throughout the city there doubtless are many wounded who, with traditional fear of the authorities and government hospitals, fear recovery. The property loss is but an estimate and is based upon calculations made by owners and contractors. Little of the loss is covered by insurance.

It was 4:26 o'clock when the first shock was felt. According to the logical observatory, the greatest intensity was reached at the end of the first minute, but the instruments continued to record the shocks for fourteen minutes more. It was of a vasillatory, twisting character, but almost free from trepidatory motions. More than half the dead accounted for were soldiers. They were caught beneath the falling walls of the artillery barracks in San Cosme, a locality near the Mexican Central station.

Six Killed at Power Plant.

Another place where the earthquake demanded the death penalty in considerable numbers was at the city power plant of the street car company. Here six were killed and six wounded.

Bodies Believed to Be in Debris.

Two others are missing, and it is expected their bodies will be found in the debris, consisting partly of steel rails, which had been stacked in the iron and wood departments which collapsed. The victims were inhabitants of little shacks built along the side of the structure.

With these two exceptions, the death list was made up of single cases or in some instances of two or three, caught beneath falling walls in the poorer buildings of the district most seriously affected.

Water Mains Not Injured.

The water mains of the city were practically uninjured and the light and power company suffered little inconvenience in operations. Before the last shock had passed the current had been turned on but merely as a matter of precaution.

Street Car Tracks Slightly Damaged.

Some slight damage was done to the street car tracks but not enough to interfere with traffic except on one line. In front of the Mexican Central station, the track was twisted enough to delay operations for a few hours.

The protection of the front wall of Belen prison was thrown down into the street. No great amount of damage was done. A long crack reaching from bottom to top also was made in the edge of the front wall of the building.

Old Churches and Palace Hurt.

Two of the capital's old churches and the National palace are buildings which show the effects of the shock. Long cracks appeared in all of them and in the palace a keystone in one of the arches in the palace was loosened and thrown almost entirely out of its place.

The two churches are Santo Domingo and La Profesa, the latter on San Francisco street. This church has shown cracks of a serious character since every earthquake and this morning they were of such a serious kind that the building was ordered closed.

Three schools sustained considerable damage but in none was there a loss of life. One of the schools was the Liceo Guadalupe, a fashionable boarding school for girls. That part of the building which collapsed was far removed from the dormitory. The frightened children and their instructors fled into the street, clad only in night gowns and pajamas.

Another school was the Mascarones College, the most famous Jesuit institution in the republic. Here is a long wall and roof extending over the side of an inclosed field collapsed. The third school building was the government Normal School.

IT'S the same as with other good things. The temptation to charge "stiff prices" for high-class things, or high-class service, is always natural. For in all artisanship nowadays the standard is higher—the doom of the commonplace is pronounced. So that, as to printing, high-grade work is not apt to cost you more than it's WORTH: still, you can pay more for it at some places than at others—and this shop is one of the "others."

THE DUTY OF THE NEWSPAPER.

In the Chico (Calif.) Daily Enter-
prise which arrived at the Eagle of-
fice yesterday, the issue of June 2,
has an editorial which appears to
be very timely in regard to the ques-
tion whether an editor has choice
about what happens, and what he re-
ports when he sets himself to report
what happens in a community. The
editorial says:

Scarcely a month passes but the
resentment of some one is aroused
by publication in the daily newspa-
pers of an item of a personal char-
acter in which the community at

YOU SHOULD BE INTERESTED

in any method that reduces the la-
bors about the household. Electricity
saves many steps and is the best
servant you could install in your
home. A few of the many things you
are able to accomplish with the use
of electricity besides lighting your
home: There is washing the clothes,
operating the sewing machine, cook-
ing, baking, heating and ironing.
Electricity is no longer a luxury—
it's a necessity.

ADA ELECTRIC & GAS CO.

large has not only a natural interest,
but about which it has a right to
know. Sentiments of bitterness and
hospitality are often aroused by
these news items and the paper and
its publishers are roundly denounced
by the friends of the individual
about whom the item was printed.

It is only fair to remember that
there is no such thing possible as for
a newspaper to mind its own busi-
ness in the same way that a private
individual may do. The newspaper
business is everybody's business and
the newspaper is obliged to con-
stantly publish news that appears
on the surface as invasion of private
affairs. This thought is admirably set
forth in the following from the Dun-
smuir Dispatch:

"Frequently in the newspaper busi-
ness there arises a necessity for dif-
ferentiating between the paper itself
and the man behind it. Though the
country paper such as usually found
in towns of this size, has been well
defined as 'The lengthened shadow
of one man,' it remains true that the
man behind the paper and the paper
itself are two entirely different. The
man who is behind the paper may
have his prejudices, his enmities and
his friendships, but he can not well
make a parade of these things in the
paper, for the paper is in a sense,
the property of the entire communi-
ty, and as such it cannot take cogni-
zance of its editor's personal feel-
ings; his likes and dislikes.

It will be readily understood from
this that the editor of a paper may
sometimes have to publish things that
he would prefer to leave unpublished
were it possible for him to consult
his personal feelings in the matter.
Public matters, however, are for the
public to know about, and the editor
who uses his columns to shield
his friends or to punish his enemies
has a wrong conception of his duties.

These few lines of explanation are
not needed now any more than at
other times, but are offered in the
hope that they will lead to a more
thorough understanding of the some-
times painful duties of an editor—
duties which even lead him to pilory
those dear to him, and which in
cases known to the writer, has caused
the father to publish the story of
his son's conviction for crime.

SOUND JUDGMENT.

Says the Salina Journal: "There
never was a preacher, or president,
poet or politician who could please
everybody. There never was a tink-
er or tailor, sailor or soldier, who
could suit us all. Show us a doctor
or lawyer, a merchant or sawyer who
pleases the whole multitude. The
Lord himself and all the angels in
heaven have never half succeeded in
comforting the human race. There is
nothing on earth or anywhere else
that meets the approval of man-
kind. Then it would be nonsense for
editors or correspondents to fret when
their honest efforts fail to please a
certain few. Write with sound judg-
ment, an honest purpose and a de-
cent pen, and the majority of sensi-
ble people will rise up and call you
blessed.

PERSONAL ORGAN PAPERS.

A newspaper to become a success
must stand for something else be-
sides being a personal organ. In
former years, when a town paper did
not suit the views of one or two
of the town's big guns, it happened
occasionally that a rival paper was
started to punish the independent
newspaper man. Such newspaper is
always a losing proposition, and the
men who put money into it are usu-
ally worked by some faker who
makes them pay dearly for thus vent-
ing the subject with the expectation of
Tribune-Chief.

And in line with the foregoing, the
Editor, Publisher and Journalist says,

"A newspaper is individual in its
character, and it is just as necessary
to procure and retain the respect and
confidence of its readers as it is for
an individual to procure and retain
the respect and confidence of his
neighbors and business associates.
The largest asset an individual can
have is a reputation for honesty and
integrity. The same is true of a news
paper."

The action of the Gainesville mer-
chants the other day was a bit
strenuous, but it indicated that the
shopkeepers of Cooke county's cap-
ital city know a good thing when
they see it. The Retail Merchants'
association which includes every
merchant in Gainesville, has put the
ban on every kind of advertising ex-
cept newspaper advertising, with a
heavy fine on any member who may
break such rule.

OKLAHOMA INDIANS DRAW COLOR LINE ON NEGRO TEACHER

APPOINTMENT OF W. T. VERNON TO POSITION OF IMPORTANCE IN SCHOOLS AROUSES VIGOR- OUS PROTEST.

Oklahoma City, June 9.—A storm
of resentment has been stirred up
all over Oklahoma by the announce-
ment from Washington that William
T. Vernon, a negro, had been ap-
pointed assistant supervisor of Indian
schools for the Five Civilized Tribes
with headquarters at Muskogee.

A protest against Vernon's ap-
pointment signed by all of the state
officers, was forwarded to the sec-
retary of the interior Thursday. It
declares that the appointment will
tend to engender race prejudice, will
nullify Oklahoma's separate school
laws and will be an insult to a race
which is proud of its patrician blood.
The protest was circulated by Sena-
tor E. M. Landrum of Tahlequah, a
Cherokee Indian by blood, who has
taken a prominent part in education-
al affairs in the Cherokee nation, and
who especially resents such an ap-
pointment, as the Cherokees have never
allowed the mixing of the races in
their tribal schools.

Similar protests were placed in
circulation as soon as the news was
received in practically every county
in old Indian Territory, which
would be affected by the order, and
according to reports received here are
being signed by practically the entire
Indian citizenship of the five
tribes, as well as by the white resi-
dents of the east side of the state
who resent the indignity thrust upon
them by such an appointment.

It is understood that the appoint-
ment was made with the approval and
acquiescence of the republican state
organization and it is generally be-
lieved to have removed the last hope
that the republicans could ever have
of carrying eastern Oklahoma or the
state at large.

was formerly registrar of the United
States treasury, and was mixed up
in some serious scandals while oc-
cupying that position. He was presi-
dent of Quindaro university, a negro

his appointment to the position in the
treasury department.

Davenport Protests.

Muskogee, Okla., June 8.—James S.
Davenport, member of congress from
the third district Thursday night
wired Secretary Fisher of the depart-
ment of the interior for confirmation
of the reported appointment of W. T.
Vernon, a negro, as assistant super-
intendent of Indian schools. At the
same time he wired a most emphatic
protest against the appointment.

In his telegram he told the secre-
tary that this is an Indian's and a
white man's country, where separate
schools are maintained for negroes,
and that no more acute insult could
have been offered 'the Indians and
the state. He also wired his con-
ferees in Washington to do their ut-
most to prevent the confirmation of
the appointment.

Moty Tiger, the full blood chief of
the Creeks, stated in an interview,
through an interpreter, "Though I
am an Indian I consider this appoint-
ment of a negro to supervise Indian
schools, as an insult but what can we
Indians do? What the government

Woman's Nature

It is the nature of women to suffer
uncomplainingly, the discomforts and
fears that accompany the bearing of
children. Motherhood is their crown-
ing glory, and they brave its suffer-
ings for the joy that children bring.
No expectant mother need suffer,
however, during the period of wait-
ing, nor feel that she is in danger when baby comes, if Mother's Friend is used
in preparation of the event. Mother's Friend relieves the pain and discomfort
caused by the strain on the different ligaments, overcomes nausea by counter-
action, prevents backache and numbness of limbs and soothes the inflammation
of breast glands. Its regular use fits and prepares every portion of the mother's
system for a proper and natural
ending of the term, and it assures
her a quick and complete recov-
ery. Mother's Friend is sold at

Work of Curtis.

Washington, D. C., June 8.—The
appointment of William T. Vernon,
a Kansas negro, formerly register of
the treasury, to be supervisor of
schools of the Five Civilized tribes
of Oklahoma by the secretary of the
interior Wednesday, came as a sur-
prise to Oklahoma members of the
house. Representative McGuire, one
of the two republican members of
congress from Oklahoma, said Thurs-
day night that he knew nothing of
the proposition to give Vernon the
place until he saw the public an-
nouncement of the appointment. He
was told Thursday that the position
amounts only to a clerkship in the
office of the superintendent of the
schools of the Five Civilized Tribes
at Muskogee.

Senator Curtis of Kansas engineer-
ed Vernon's appointment. He has
been trying to get him the post of
minister to Haiti, but recently it de-
veloped that the present minister to
that country will not relinquish the
position, as had been reported. In
casting around for another place for
his constituent Senator Curtis dis-
covered the Oklahoma vacancy.

Since Vernon's appointment was
made by the secretary of the interior
and not a presidential appointment,
no confirmation of it is necessary.
The appointment was made Wednes-
day.

Now Will They Attend Council?

Topeka, Kan., June 9.—Attorney
General Dawson today notified the
five members of the council at Hun-

town, Miss Ella Wilson, and that no
more trifling would be tolerated.
"I notified the councilmen that the
joke had gone far enough," said the
attorney general today.

GRADUATION EXERCISES

YOUNG MAN AND WOMANHOOD: YOUTH AND BEAUTY RECEIVES DIPLOMAS—CONCLUSION SECOND YEAR ADA NORMAL.

CHAS. EVANS, SPEAKS

Popular Oklahoman, Polished Citizen and Orator of Ability Delivers Graduation Address. Tonight the regular commencement

It was the graduating event last evening which concluded the regular commencement exercises for the 1910-11 college year.

President Chas. Evans of the Edmond normal delivered the address. No man could have been secured for such auspicious occasion whose appearance and address would have been more appreciated. Mr. Evans is particularly popular with the people of Ada and is held in the highest admiration by the Ada normal faculty and students of this section.

His address was a masterful one and the large audience heard him throughout with earnest and expressive attention.

When Prof. Evans had concluded, President Briles, addressed the graduating class which occupied the platform.

Those of the graduating class were the Misses Moss Wingo, Annie Mae Sims, Allyne Shands and Mr. Leo French, all of whom are a credit to the East Centra State Normal.

The following was the program for the evening.

Thursday Evening.

1. Spring Song—Girls Glee Club.
2. Presentation of a Bust of Shakespeare by Sorosis.
3. Chimney Song—Male Quartet.
4. Address, President Chas. Evans.
5. Awarding of Diplomas.
6. Song selected—Male Quartet.

Tonight is the occasion of the alumni banquet.

NEWS REPORTER SINCERELY RESPECTFULLY APOLOGIZES

The News' report of the event of the musical at the normal Wednesday evening in Thursday's issue, stated that such "was under the direction of college instructor, Miss Van Wormer," where there should have been stated that such event was under the direction of Miss Van Wormer and Miss Anderson; Miss Anderson being the Piano instructor while Miss Van Wormer is the vocal instructor, each being entitled to equal credit with the other for the finished presentations during the evening due to their respective instructions.

The News reporter profoundly apologizes for the most inadvertent oversight of Miss Anderson's name of equal entitlement in the little hurried write-up of the musical evening event.

YES; Some Good Printing

Costs Too Much; Too!

IT'S the same as with other good things. The temptation to charge "stiff prices" for high-class things, or high-class service, is always natural. For in all artisanship nowadays the standard is higher—the doom of the commonplace is pronounced. So that, as to printing, high-grade work is not apt to cost you more than it's WORTH; still, you can pay more for it at some places than at others—and this shop is one of the "others."

It will pay you to get our prices before placing your order for printing.

FOR REVISION ANTI-TRUST LAW

STEEL PRESIDENT FOR MAINTENANCE OF EQUILIBRIUM OF BUSINESS AS AGAINST DESTRUCTIVE COMPETITION.

New Act Should Draw the Line Between Legal and Illegal Acts.

Washington, June 8.—Legislation to replace the Sherman anti-trust law to protect property interests and the people's welfare alike, was urged by Elbert H. Gary, chairman of the board of directors of the United States steel corporation, in concluding his testimony before the house committee "steel trust" investigating committee. Judge Gary said he hoped the committee in its report on the investigation would give the United States steel corporation what the committee thinks ought to be the corporation's standing under the law.

"I wish," said he, "this committee will take advantage of its opportunity to suggest legislation and use its influence to bring about the enactment of proper legislation calculated to properly protect the property interests of the country, the interests of the government and the people at large, so as to permit us to continue business progress along lines of prosperity."

"Would you believe it sensible," asked Representative Littleton, "to have congress appoint a joint committee to hear representatives of capital and of labor and of so-called restrained and unrestrained trade with a view to preparing an anti-trust law which would correct features of the Sherman law or errors that might have come through court decisions on that law, and to strengthen and elaborate that law?"

Would You Live Up to It.
"Yes I do," responded Mr. Gary, "and I would be glad to have such an undertaking result in something more practical and to be the first one to fall into line and to live up to such a law."

The so-called "Gary dinners," where steel men acquainted each other with facts relating to their business and suggested the maintenance of prices to prevent "destructive competition," were delved into by the committee. Representative Beall sought to show that the result of those understandings was tantamount to a signed agreement to control prices, a violation of the Sherman anti-trust law.

"I have said repeatedly," said Mr. Gary, "that I believe, and all of us in the steel business believed, that open and frank disclosures to each other of our business conditions and suggestions as the best interests of all brought about an equilibrium in the trade and prevented destructive competition."

"The only question involved in those dinners is whether it is good law or good morals to endeavor by friendly intercourse, to maintain to a reasonable extent an equilibrium of business and prevent destructive competition."

"The only question involved in those dinners is whether it is good law or good morals to endeavor by friendly intercourse, to maintain to a reasonable extent an equilibrium of business and prevent destructive competition."

It's Up to Country.
"If the department of justice or the president should say that this is not the right thing to do it would not be continued for one minute."
"If the members of this committee believe it is better for all concerned in this country for the steel in-

terests to enter into destructive competition than to try to legally maintain an equilibrium of business, it is up to you.

"If you want to take the responsibility on behalf of the government of saying destruction would be better than for the steel interests to confer with each other and for the maintenance of ruinous policies, whereby the strongest would survive, the weakest go down and business generally be demoralized, we will not oppose your action but we believe we have done the best thing we could do under the law through the maintenance of friendly relations."

"Did you not mean to accomplish the same result, through your friendly interchange of ideas at the Gary dinners, as would have been accomplished by an illegal agreement to control prices?" asked Representative Beall.

Mr. Gary replied that this was not so in his opinion, that whatever had been done was legal and that men who attended those meetings were left entirely free to do as they pleased but that honest disclosures of competitors' prices placed men on their honor to seek to maintain prosperous conditions. Mr. Lindabery, counsel for the United States steel corporation, referred to the efforts of men in the steel industry through the Gary dinners as an attempt to put into practical operation the golden rule.

Kept Prices Equal.

Mr. Gary said he made no attempt to disguise the fact that the steel men of the country sought to maintain prices as near a level as possible through friendly interchange of ideas for the purpose of getting between the restraint of trade and monopoly provisions of the Sherman law, on one hand and destructive competition on the other. He had never stood for unchanged prices, he declared, but against wide fluctuations.

The recent action of the Republic Iron and Steel company in influencing prices, it is said, was because officials of that company had decided not to co-operate with others in the industry, which proved, he thought, that there was nothing binding in the Gary dinner deliberations.

Mr. Gary's attention was again called to his former declaration that he favored government control of corporations. He said he would have the government license corporations engaged in interstate commerce, first deciding whether it was so entitled under the anti-trust laws. He would make the license revokable for misconduct, but in all cases would retain the right of appeal to the court which right he added, "is the salvation of this country."

His opinion of Wall street was drawn out when he was asked concerning the capitalization of United States steel corporation and concerning intrinsic values. The capitalization of the steel company, he insisted, was not too great in view of the additional value give all companies included when they were combined into one growing, vitalized concern.

MEXICO EARTHQUAKE POSSIBLY KILLS 1,000

ESTIMATES OF DEAD VARY—THE GREATEST DESTRUCTION IN LARGER CITIES.

City of Mexico, June 9.—At least 150 people are dead as the result of the earthquake which yesterday twisted itself from coast to coast in Mexico. Slowly the government is receiving its reports from points in a rectangular area, the northern bound-

ary of which is less than fifty miles from the capital and the southern line cuts across the lower point of the state of Guerrero.

Contrary to precedent, the number of casualties in the state of Guerrero are few, but in this city the list has lengthened somewhat and in the state of Jalisco many have been added to the death list.

Many Town Not Heard From.

From scores of villages, where fatalities are known to have occurred, reports have not been received and probably never will be. The list of dead in the City of Mexico is placed at sixty-three.

In the state of Jalisco the greatest death loss appears to have been in Ocotlan, where fifty-nine bodies have already been recovered.

Tonalá, a small town in the same state, is reported as almost wiped out. A number of lives were lost.

Not many people were killed in the city of Colima, but a considerable amount of damage was done. The cathedral is so badly damaged that a very slight shock might cause its collapse and the tower of another church was toppled onto the roof.

The volcano Colima has displayed considerable more activity during the past forty-eight hours, but the chief of the meteorological observatory in the capital is authority for the statement that this has nothing to do with the earthquake.

It believes the field is open here for a good morning free paper.

This will leave the Free Press in the free field in the evening and the Pointer to compete as a free paper with the Oklahoman in the morning.

GAYNOR SAYS "GO AHEAD."

New York's Mayor Declares Every Citizen Has Power to Make Legal Arrests.

New York, June 8.—Unofficial policemen may become numerous in New York if Mayor Gaynor's advice to an indignant citizen who asked authority to make arrests is generally followed.

"Sail right in as hard and as fast as you want to," the Mayor wrote.

"The applicant had asked appointment as a police officer to serve with our pay so that he could apprehend car rowdies and the violators of public order whose offenses he said he frequently witnessed."

"You have the same right to make an arrest for an offense committed in your presence as any policeman," said the Mayor. "Their clothes and their buttons add nothing whatever to their right to make arrests. Be convinced of your powers and then sail right in as hard and fast as you want to."
